

## Special Convention Committee

I propose a committee undertake to review the policies we have for regionals and the national to reaffirm or drop those we have and develop new ones for board consideration. We have a wealth of data for example regarding public days at regionals and national but have not established a policy regarding their use.

We have few policies re national. Do we want education, workshops, auctions, public days, what days we want the mart open, do we want craft contests, entertainment at the banquet, etc. Should there be guidance re where and when nationals are held through out the country.

At regionals should there be a time for members to address the national rep other than the breakfast or banquet, if there are educationals how many, should there be workshops at regionals, should they be 2 days, is it required to have sponsorship from more than one chapter and other items brought up by the committee.

The committee would consist of three board members, two members of the convention committee and two members from the membership at large.
