

The ILLINOIS WATCH

SINCE 1870 AT
SPRINGFIELD, ILLINOIS

18/0 or 6 3/4 Ligne
Rectangular

The Mary Todd

17 Ruby and Sapphire
Jewels

THE Eighteen-O rectangular watch was produced by Illinois to meet the approval of the most fastidious women who desire a timepiece of rare beauty and refinement in a small, thin rectangular shape, one accurate and dependable that is not a mere ornament. ¶The fine 17 jewel movement has been the pride of Illinois craftsmen, whose privilege it has been to produce it. To these people it is more than just a watch movement, it is an accomplishment they are proud of. ¶The beautiful 18K solid

gold cases, used on the Mary Todd model, were designed by the best artists in the industry. They are especially artistic in appearance and worthy to become a part of Illinois. Some are hand engraved while others are hand engraved and delicately inlaid with enamel. The models illustrated on this page give an idea of the various case designs. The attractive dials illustrated are etched and finished with white silvered back ground, the numerals etched raised and gold finished.

HAMILTON WATCH

HAMILTON STRAP MODELS for MEN — and WOMEN

The Piping Rock

An ultra-modern strap watch styled by designers of international prominence. The numerals of gold, set in enamel, are a part of the case—not the dial. 14K yellow or white gold, \$125.00.

List, \$147.80

The Piping Rock is fitted only with the Hamilton 19 jewel, 6/0 size movement No. 979.

The Hastings

Utterly smart and utterly masculine. This model is available in 14K filled yellow or white gold at \$55.00.

List, \$67.50

14K yellow or white gold, plain, at \$85.00.

List, \$103.00

The Hastings model is fitted with the Hamilton 987, 17 jewel, 6/0 size movement and has luminous dial and hands.

HAMILTON WRIST WATCHES for WOMEN

Cushion Model

14K white or green gold, engraved, \$60.00.

List, \$75.20

14K filled gold, white or green, engraved, \$48.00.

List, \$58.20

There is a subtle beauty about the Hamilton wrist watches for women. There is much satisfaction in Hamilton's remarkable timekeeping qualities. One must remember that even though beauty is desired, the first purpose of a watch is to keep time. In the Hamilton both of these qualities are developed in high degree.

Tonneau Model

14K white or green gold, engraved, \$60.00.

List, \$75.20

14K filled gold, white or green, engraved, \$48.00.

List, \$58.20

Hamilton Wrist Watches for Women are fitted with the remarkably accurate Hamilton 987 movement, 6/0 size—17 jewels.

HAMILTON WATCH

The MASTERPIECE GROUP

Hamilton Masterpiece In 18K Gold

Altogether worthy the name Hamilton—are these remarkable examples of the watchmaker's craft. The cases are fashioned of extra heavy 18K white or green gold, hand made throughout and richly carved. All Masterpiece models are fitted with the Hamilton 23 jewel Masterpiece movement, adjusted to heat, cold, isochronism and five positions; have patent motor barrel, gold train, steel escape wheel, double roller escapement, sapphire pallets, micrometric regulator, Breguet hairspring and compensation balance. The dials are of sterling silver, brushed or lined finish, with raised numerals of 18K gold.

\$250.00

List, \$303.20

Specify the model desired "B" or "C"

Hamilton Masterpiece In Platinum

Hamilton has designed this remarkably fine watch in response to insistent demands for a Hamilton Masterpiece movement in a platinum case. This model is entirely new. The bezel is a simple circlet of platinum while the center and bow are richly carved in high relief.

The dial of sterling silver has raised numerals of solid gold and solid gold hands. The Hamilton Masterpiece in platinum is a watch altogether unusual in appearance and in accurate timekeeping performance.

The ILLINOIS WATCH
SINCE 1870 AT
SPRINGFIELD, ILLINOIS

Illinois Railroad Grades

IT'S THE RESERVE POWER THAT COUNTS

THE combination of the Illinois Superior Motor Barrel together with other outstanding features of construction makes possible the use of an unusually thin mainspring, which gives Illinois Railroad models their 60 hour run, from one winding.

It is for these reasons that the Bunn Specials and the Sangamo Special are guaranteed to run 60 hours from one winding. They will, if not wound after the first 24 hours, maintain the accuracy of the average railroad watch for the

Plant of The ILLINOIS WATCH, Springfield, Illinois

next 24 hours and then will continue to run for 12 hours more.

This extra power is more important if it is held in reserve by winding regularly every 24 hours. Thus the mainspring maintains practically a uniform tension at all times and furnishes the most fundamental kind of compensation for the variation

in tension of the usual mainspring. In addition, the Sangamo Special and Bunn Specials are adjusted to six positions instead of the usual five that is required for railroad time inspection.

The Sangamo Special

The 60 Hour 6 Position Watch

The Sangamo Special is an extremely high grade, 23 jewel, 16 size, complete watch, adjusted to 6 positions and is guaranteed to run 60 hours on one winding. This watch is considered by the makers as the "last word" in railroad watches.

All material used in the construction of this watch is of the highest quality and made as accurate as human skill and the latest improved machinery can produce. Each part is individually fitted, one to the other, into the watch it is intended for.

Special designed case by Wadsworth, extra heavy and durable with stationary bow. Furnished in either 14K white, green or yellow gold filled, or 14K white, green or yellow solid gold. Also, furnished in 14K white or yellow gold filled, screw bezel and back case.

The dial on model shown above is double sunk, glass enamel. Heavy Gothic figures. Also furnished with Butler center, silver dial, Railroad figures.

The ILLINOIS WATCH
SINCE 1870 AT
SPRINGFIELD, ILLINOIS

The 23 Jewel Bunn Special

60 Hours - 6 Positions - Motor Barrel

FOR more than a quarter of a century, Illinois watches have been leaders in railroad service, owing to their durability and accurate time keeping qualities. The 23 jewel, Bunn Special is the perfected railroad watch and is the last word in timing the trains. It so far exceeds railroad requirements that it will meet all service demands of the future. It is our opinion that this watch

cannot be surpassed for satisfactory and dependable railroad service, and constitutes the best value in timepieces ever produced. The extra quality sapphire jewels for bearings of both pivots of the going arbor of the motor barrel in the 23 jewel Bunn Specials, greatly reduces friction and adds to the perfection of the construction of these exceptionally fine railroad watches.

Above model furnished in 14K white or green gold filled also green center with white back and bezel Keystone case. Dial is double sunk, glass enamel with heavy Arabic figures.

Retail \$75.00
List \$81.50

Special Design Case

THE 23 Jewel Bunn Special cases were designed by Keystone especially for this model. They are very unique in design, showing strength of character in every line. They have been termed by many as the most attractive Railroad cases of recent manufacture. The cases are screw bezel and back. The bows are absolutely non-pull-out, while the pendant, in fact the entire case, is dust proof.

The 23 Jewel Bunn Special Movement

16 Size 23 Jewels Three-Quarter Plate Model Adjusted to 6 positions and heat, cold and isochronism; raised gold jewel settings; spring tempered compensating balance with solid gold screws; polished gold beveled train wheels; doubleroller escapement and entire escapement cap jeweled, steel escape wheel; Breguet hairspring; concaved and polished steel winding wheels; positive micrometric screw regulator; safety recoiling click; Illinois Superior Jeweled Motor Barrel.

The ILLINOIS WATCH
SINCE 1870 AT
SPRINGFIELD, ILLINOIS

The 21 Jewel Bunn Special

60 Hours - 6 Positions - Motor Barrel

THE 21 Jewel Bunn Special, 16 size, high grade railroad watch is standard for railroad service. Its Superior Motor Barrel permits the use of a longer, thinner mainspring which drives the watch 60 hours from one winding—a tremendous factor of safety, since the watch will maintain its even, accurate rate for more than 48 hours. It is a watch that is giving railroad

men everywhere complete satisfaction in every way. For more than a quarter of a century the Bunn Special has been recognized for its superior timekeeping qualities. Its sturdy mechanical construction, together with the most modern improvements, consisting of the Illinois Superior Motor Barrel and the 60 hour running feature, has made it a leader in its line.

Above model furnished in 14K white or green gold filled Wadsworth case. Dial, double sunk, glass enamel, Heavy Arabic figures.

Retail \$65.00
List \$72.00

Special Design Case

THE cases, designed by Wadsworth, are the result of their years of experience in the making of fine watch cases. These movements are fitted, timed and rated in their cases at the factory. Both styles of cases are made with screw back and bezel, the metal used being much thicker than is usually found in standard 16 size cases. The bows are absolutely non-pull-out, and pendant contains a special dust-proof feature, making it impossible for dust or dirt to work through into the movement.

The 21 Jewel Bunn Special Movement
