SPECIAL EDITION FOR
THE RETAIL JEWELER

HAMILTON WATCH COMPANY
LANCASTER, PENNA.
U. S. A.

THIS HAMILTON WATCH CATALOGUE is issued in response to a very definite demand from the Retail Jewelers of America. It is virtually a reprint of the Hamilton Sales Manual and it shows the various Hamilton models in 6/0, 12- and 16-size, and the new 6¾ line together with the various dials and combinations. By using this catalogue you may be sure of ordering exactly what you desire. You can select the combinations of cases and dials and movements and know in advance the details of what you are going to receive. You will also know exactly what the price will be—both to yourself and to your customer.

The popular 912 models are now available in eleven case designs—several of which have been added during the past year. These cases are fitted with the 912 movements only; and in turn, the 912 movements may be had only with the cases and dials shown on the 912 pages. You will notice that the Garfield model is the only 912 fitted in 14K solid gold case. This model at \$75.00 fills a long-felt need in the Hamilton price range. You will also be interested in the Wheatland, a new \$50.00 Hamilton, which is rapidly finding favor with the consumer.

The Hamilton 974, 17-jewel movement is no longer sold uncased. It is now available only in the new "Traffic Special" filled gold case, retailing at \$35.00. The introduction of this accurate \$35.00 cased model into the Hamilton line of 16-size watches has opened a new and important field for the Retail Jeweler—a potential market among artisans, trades-people, and railroad men whose watches are not subject to official railroad time inspection requirements.

It is our desire also to call your attention to the services offered by our Sales Promotion Department. Jewelers who are interested in increasing their watch sales are invited to write to our Sales Promotion Department for helps which have already been tried and proven successful.

The NEW HAMILTON MASTERPIECE

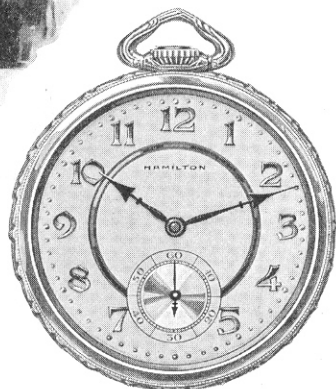

The IDEAL WATCHES

for Presentation

The Hamilton Masterpiece group offers a choice of two beautiful models in 18K gold as well as the platinum model described on the opposite page.

Masterpiece Model "B"

Masterpiece Model "C"

THE HAMILTON MASTERPIECES IN 18K GOLD

Altogether worthy the name Hamilton—are these remarkable examples of the watchmaker's craft. The cases are fashioned of extra heavy 18K white or green gold, handmade throughout and richly carved. All Masterpiece models are fitted with the Hamilton 23 jewel Masterpiece grade movement, specially adjusted to heat, cold, isochronism and five positions; have patent motor barrel, gold train, steel escape wheel, double roller escapement, friction set roller jewel, sapphire pallets, micrometric regulator, Breguet hairspring and Invar compensation balance. This grade of movement is subjected to the most rigorous rating and timing tests. The dials are of sterling silver, brushed or lined finish, with raised numerals of 18K gold.

Price, \$250.00

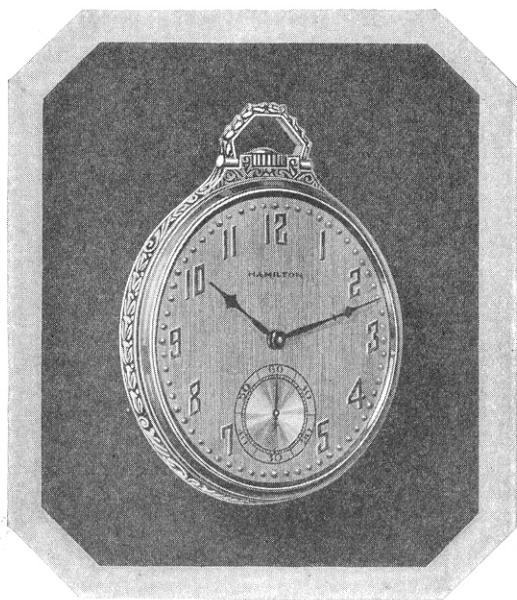

List, \$303.20

The
NEW HAMILTON
MASTERPIECE

THE
NEW HAMILTON
MASTERPIECE
IN PLATINUM

Hamilton has designed this remarkably fine watch in response to insistent demands for a Hamilton Masterpiece movement in a platinum case. The above model is entirely new. The bezel is a simple circlet of platinum while the center and bow are richly carved in high relief.

The dial of sterling silver has raised numerals of solid gold and solid gold hands. The Hamilton Masterpiece in platinum is a watch altogether unusual in appearance and in accurate timekeeping performance.

Price, \$685.00
