Hamilton Watch Company

Lancaster, Pa., U. S. A.

Established for the purpose of manufacturing not the greatest number of watch movements, but the very best that could possibly be made. Realizing that there was only room at the top, we strove for that place and have attained it and propose to hold it as long as HAMILTON WATCHES are made.

The many thousands who are carrying our watches will testify to the fact that we absolutely and positively make the best watches that are made in America.

THREE CARDINAL VIRTUES:

1st.—We make only the finest grade of watch movements.

2d.—We were the inceptors of the plan to positively maintain the prices that would give the Jeweler a reasonable profit, and unless he will maintain these prices, we positively refuse to allow him to handle our goods.

3d.—We will not allow our watches to be sold to dealers who are not regular legitimate Jewelers, thereby keeping our movements out of the Department Stores, Pawnbrokers and other illegitimate channels.

This plan will be maintained so long as HAMILTON WATCHES are manufactured.
