## ANNUAL HAMILTON FAMILY PICNIC SCHEDULED FOR JUNE 20

A day of fun-packed excitement for all ages has been planned for the annual Hamilton family picnic to be held on Saturday, June 20, at Hershey Park.

In the morning there will be pony rides for the youngsters and games for everyone. During the day many valuable door prizes will be given away; and, by request, the ever-popular "guessing contest" will again be featured.

Free coffee at noon, bingo for adults, and an all-star New York variety show at 4 p.m. in the bandshell will round out the day's agenda.

Amusements will open at 10 a.m. this year and tickets for the rides are available now in the company cafeteria at a 40% discount. All tickets purchased now will be valid this summer and next.

For those who need transportation, buses will depart from the Rider Avenue parking lot at 9 o'clock the morning of the picnic. There will be a nominal charge of 50¢ per person for this service, but

children six years of age and under will ride free.

John Keener, the new HRA president, is chairman of this year's event with Wally Bork serving as coordinator.

Imagine the sudden appearance from nowhere of a 103-lb. Old English sheep dog. You'll see this and lots more during the fast-paced act featuring Crawford and Gloria — Illusionists.

Musical puppets and madcap monkeys created by Dave Monahan will perform on the xylophone with amazing dexterity.

Other acts in the variety show will include The Chordsmen and Irene, winners of Arthur Godfrey's Talent Scouts program, and the Fantastic Flying Y's, acrobatic artists.

## HAMILTON "NUMISMATISTS" PRODUCE FIRST COIN

Are you or do you want to be a NUMISMATIST? If so, why not join the Hamilton Watch Coin Club. Don't let that big word scare you because it's simply the formal name for a coin collector.

The Hamilton Watch Coin Club, formed in September 1969 by 16 employees, has a current membership of 26 and is still growing. Meetings are held the first Wednesday of each month at 7:30 p.m. in the cafeteria with new members and visitors always welcome.

The club's current officers are Tom McGinnis, president; Al Lutz, 1st vice-president; Bill Laing, 2nd vice-president; and Ed Guiles, secretary-treasurer.

On the agenda at each meeting are a business session, an educational exhibit or speaker, door prizes, refreshments, and an auction at the conclusion. The auction committee consists of George Thomas, machine shop and Betty Hamblin, personnel.

The coin club has already produced its first commemorative medal and is currently holding a contest for the design of its second medal. All club members are eligible to enter the contest which closes August 5. The winner will be announced

and the prize awarded at the September meeting.

Anyone requesting more information about the club should contact Tom McGinnis at extension 555, or any member of the club.

The front of the new commemorative coin shows Hamilton as it looked in 1892 while a reproduction of a \$20 gold piece is shown in the center on the reverse side. Size of the new coin is slightly larger than a silver dollar.

## WALLACE NEWS

## WALLACE POWER PLANT EXPANDED TO MEET GROWTH

Behind any expansion and growth program is the assumption that a sufficient supply of steam will be available to heat the buildings, generate electric power and operate the machinery. In order to meet the demands of growth, a major expansion of the Wallace Power Plant was begun in 1969.

The heart of the power plant expansion is a new boiler which is capable of producing 50,000 pounds of steam per

## TWO WALLACE SALESMEN RECEIVE AWARDS FOR PERFORMANCE

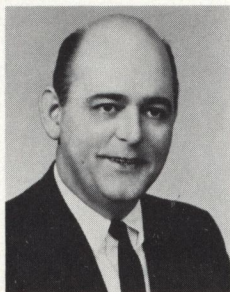

Michael J. Connolly received the "Outstanding Salesman of the Year" award for the second year in a row and Theodore J. Caldwell, Jr. was awarded the "Salesmanship Improvement" award for 1969 during the three-day Wallace National Sales Conference held in Vail, Colorado from May 18 through May 20.

Mike joined the Wallace sales department in 1966 and covers the Long Island, West Chester County, New York and Northern New Jersey area.

Ted first became associated with Wallace in 1968 as a sales trainee. He was the representative for Wallace in Wisconsin and Iowa before relocating to North Carolina at the beginning of the year.

# PULSAR GAINS WORLD-WIDE FAME

Reaction to Pulsar has exceeded all expectations according to Gene Angers, general marketing manager of the watch group. Major department stores and jewelers from all over the country have expressed interest in the revolutionary timepiece and to date well over 100 models have been sold.

Pulsar has already been featured on such famous television programs as the Tonight Show and the Today Show and is scheduled to appear on several addi-

tional networks, such as the British Broadcasting Company in London.

New York Times, Wall Street Journal, Business Week, and even the Bangkok Times are just a few of the many major publications that have publicized the world's first solid-state timepiece.

According to Gene Angers, "people look at Pulsar as a revolutionary advance in the field of timekeeping — an advance that has firmly established Hamilton as a leader in timekeeping technology."

John Bergey, director of research and development for the watch group, speaks to members of the press on the technical aspects of Pulsar.
