

The honor which has been bestowed upon us could not have been ours without the help and cooperation of *all* members of the Hamilton family. But particular credit is due those Hamilton employees whose special skills—developed through years of experience building fine watches exclusively—provide the “know how” out of which the E-winning *wartime* products were designed and produced.

To them we now pay tribute—the corporals, the sergeants, the lieutenants, the captains in Hamilton’s army of production—men and women whose long and faithful service is the very foundation for Hamilton’s reputation as a manufacturer of the finest kind of fine timepieces.

*Calvin Mendig*

*President Hamilton Watch Company*
